SNRN EPILOG #2: Publishing Your Work

ISEE

07:00 PM - 08:00 PM EST

The SNRN is proud to present EPILOG, a webinar series that showcases the work and experiences of trainees and seasoned researchers in environmental epidemiology. By providing a platform for scholars to share their experiences and insights, EPILOG seeks to facilitate meaningful exchange and promote lifelong learning within our student and early career researcher community. The name of the series is a play on words that combines EPI as in “epidemiology” and LOG as in “logging one’s experience,” while also referencing the word “epilogue,” which refers to a conclusion or closing remarks at the end of a speech or book. Our hope is that EPILOG will serve as a valuable resource to many.

2nd EPILOG Webinar of 2025

*“Publishing Your Work: A Key Skill for Students and Early Career Researchers”
Tuesday, May 6th from 7:00 - 8:00pm EDT*

This webinar is a guide for students and early career researchers seeking to publish their research. The panelists will discuss valuable strategies for writing impactful papers, choosing the right journals, and navigating the peer-review process.

Panelists:

- Estela Blanco, Pontificia Universidad Católica de Chile*
- Xiaoqi Feng, UNSW Sydney*
- Jane Hoppin, North Carolina State University*

Moderator:

- Chinonso Odebeatu, The University of Queensland*

Follow @ISEESNRN on X, LinkedIn, and Bluesky for updates.

ISEE Online Course: Mixtures Session 4

ISEE

11:00 AM - 12:00 PM EST

Panel Discussion + Q&A

May 19, 2025
- August 26, 2025

Skills for Health and Research Professionals (SHARP) Summer Trainings
Varied Course Options

Registration is now open for 30 hands-on summer boot camps designed for health and research professionals from any organization and all career stages! Learn immediate take-away skills directly from the experts over 1-4 days this summer. Training formats are either in-person in New York City, livestream, virtual over Zoom, or a hybrid mixture. See training topics and dates below, and check out the official flyer with all 2025 topics to share with your colleagues.

August 17, 2025
- August 20, 2025

Joint Annual Meeting of ISES and ISEE

Hyatt Regency
265 Peachtree Rd NE
Atlanta, Ge 30303

Visit the conference website for the schedule

This conference promises to be a dynamic and enriching experience, bringing together professionals, researchers, and students from around the globe to come and share their latest findings, innovations, and insights. Expect engaging keynote sessions, thought-provoking panel discussions, and high-quality symposia.

Atlanta, known for its rich history and dynamic culture, provides an inspiring backdrop for our gathering. Come explore the latest findings in environmental epidemiology and exposure sciences, connect with fellow professionals, forge collaborations, exchange ideas, and discuss how your research can inform evidence-based policies and interventions. This conference will also be a great opportunity for students and early-career researchers.

We look forward to welcoming you to what promises to be an engaging and impactful conference. Your participation is vital to the success of this event, and we are eager to see the contributions you will bring to our collective mission of advancing environmental health.
