Skills for Health and Research Professionals (SHARP) Summer Trainings
Varied Course Options

Registration is now open for 30 hands-on summer boot camps designed for health and research professionals from any organization and all career stages! Learn immediate take-away skills directly from the experts over 1-4 days this summer. Training formats are either in-person in New York City, livestream, virtual over Zoom, or a hybrid mixture. See training topics and dates below, and check out the official flyer with all 2025 topics to share with your colleagues.

Building safety programs for community and museum collections | Free, Virtual Series
The George Washington University Museum and The Textile Museum and The Johns Hopkins Education
701 21st Street, NW
Washington, DC 20052
See website for details
Maria Fusco,
fuscom@email.gwu.edu

The George Washington University Museum and The Textile Museum and The Johns Hopkins Education and Research Center for Occupational Safety and Health are collaborating to present a virtual series titled "Building safety programs for community and museum collections" from July through December of 2025.

This series will present case studies of museums or indigenous communities working in partnership with Occupational and Environmental Health and Safety professionals to increase safe practice with their collections as relates to pesticides, silicosis and biocide related risks. The museum field increasingly has experience working with industrial hygienists, but adding epidemiologists to such collaborations is less charted territory with much potential.

Our goal is to share this information in a manner accessible to a mix of stakeholders and professionals so the format is a free, virtual series of presentations, though registration is required.

A list of presenters and their topics as well as registration information can be found [here](#).

Recorded presentations will be archived on the JHU Education and Research Center for OSH YouTube channel.

Artificial Intelligence in Environmental Epidemiology Research: Ethical Perspectives
ISEE

12:00 PM - 01:00 PM EST

Please join the ISEE Ethics and Philosophy and Communications committees for our upcoming webinar, Artificial Intelligence in Environmental Epidemiology Research: Some Ethical Perspectives. Artificial intelligence applications are gaining momentum in epidemiological research and becoming integral to academia and policy. However, there has been a growing concern about its fair and ethical uses. Our two expert panelists, Drs. Martin Tondel and Jonah Lipsitt will explore such gaps, how to address them, and intend to share public opinion on actions. The webinar will be moderated by Drs. Diana Pacyga (Co-chair of the Communication Committee) and Atanu Sarkar (Chair of the Ethics and Philosophy Committee).

Joint Annual Meeting of ISES and ISEE

Hyatt Regency

265 Peachtree Rd NE

Atlanta, Ge 30303

Visit the conference website for the schedule

This conference promises to be a dynamic and enriching experience, bringing together professionals, researchers, and students from around the globe to come and share their latest findings, innovations, and insights. Expect engaging keynote sessions, thought-provoking panel discussions, and high-quality symposia.

Atlanta, known for its rich history and dynamic culture, provides an inspiring backdrop for our gathering. Come explore the latest findings in environmental epidemiology and exposure sciences, connect with fellow professionals, forge collaborations, exchange ideas, and discuss how your research can inform evidence-based policies and interventions. This conference will also be a great opportunity for students and early-career researchers.

We look forward to welcoming you to what promises to be an engaging and impactful conference. Your participation is vital to the success of this event, and we are eager to see the contributions you will bring to our collective mission of advancing environmental health.

III Encuentro de Investigadores J³venes en Salud Ambiental de Am³rica Latina y el Caribe ISEE

TBA

The ISEE - LAC Chapter 3rd Meeting of Young Researchers in Environmental Health of Latin America and the Caribbean. This online and free event will be held on November 12 -14, 2025, organized by the ISEE-LAC Chapter and hosted by Universidad Peruana Cayetano Heredia in Lima, Peru. We aim to bring together students and young researchers to share ideas, proposals, scientific research work, and experiences (both completed and ongoing), on environmental health issues involving the countries in LAC.

Tercera Reunión de Jóvenes Investigadores en Salud Ambiental de América Latina y el Caribe del Capítulo ISEE-LAC. Este evento en línea y gratuito se llevará a cabo del 12 al 14 de noviembre de 2025, organizado por el Capítulo ISEE-LAC y acogido por la Universidad Peruana Cayetano Heredia en Lima, Perú. Nuestro objetivo es reunir a estudiantes y jóvenes investigadores para compartir ideas, propuestas, investigaciones científicas y experiencias (tanto completadas como en curso) sobre temas de salud ambiental que involucran a los países de América Latina y el Caribe.
